HOW TO READ THIS PAGE

855 counties with published 2024 ACS 1-year rent-burden estimates are included. Six otherwise eligible county geographies lack B25070 and are excluded.

30%+ and 50%+ rates use renter households with a calculable rent-to-income percentage. The “not computed” group is excluded from that denominator.

These are survey estimates. The source retains margins of error, but this report does not calculate uncertainty for derived rates. Close county rankings should not be treated as meaningful differences.
